Creating slideshows

To create a slideshow

This is only possible if ...

The Bimplus project is loaded in BIM Explorer (see "[Loading the building model into BIM Explorer](#)")
You have the required rights (see "[Rights in Bimplus](#)")

1. Go to the left sidebar and click  **Show project slideshows**.

You can see the **Project slideshows** palette.

Tip: To hide the **Project slideshows** palette, click  **Show project slideshows** again.

2. Click  **Options** and select  **New**.

You can see the **Create slideshow** dialog box.

3. Enter a name for the slideshow and click **CREATE**.

This creates the slideshow.

4. To define the first slide of the show, select the required perspective view in full view.
5. Click **ADD SLIDE** in the **Project slideshows** palette.
6. Select the next perspective view; click **ADD SLIDE** in the **Project slideshows** palette again.

Repeat this until you have saved all perspective views that you want to include in the slideshow.

7. Go to the **Project slideshows** palette, point to one of the slides saved and click  **Rename**.
8. Enter a name for the slide.
9. Repeat this until you have entered names for all slides of the slideshow.

Editing slideshows

To edit a slideshow

This is only possible if ...

The Bimplus project is loaded in BIM Explorer (see "[Loading the building model into BIM Explorer](#)")
You have the required rights (see "[Rights in Bimplus](#)")

1. Go to the left sidebar and click  **Show project slideshows**.
You can see the **Project slideshows** palette.
2. Use the **Select slideshow** list box to select the slideshow that you want to edit.
3. *If you want to remove a slide:*
Go to the **Project slideshows** palette, point to the slide that you want to delete and click **X Delete**.

Or:

If you want to change the perspective view of a slide:

Select the required perspective view in full view. Go to the **Project slideshows** palette, point to the slide that you want to change and click

Refresh slide.

Or:

If you want to add a new slide to the end of the slideshow:

Select the required perspective view; click **ADD SLIDE** in the **Project slideshows** palette.
