Multi Modell Manager aufrufen

You work with the multimodel manager by means of a palette that has the same name.

To show the Multimodel manager palette

This is only possible if ...

The Bimplus project is loaded in BIM Explorer (see “Loading the building model into BIM Explorer”)

- Go to the left sidebar and click **Multimodel manager**.

  You can see the **Multimodel manager** palette on the left side.

  Tip: To hide the **Multimodel manager** palette, click **Multimodel manager** again.
