

Bimplus Team eröffnen

Important!

Note the following principles when you open a Bimplus team:

- Each email address registered with Allplan Connect or the Allplan Community can open exactly *one* Bimplus team.
- The person behind the email address automatically becomes the team owner. This role *cannot* be transferred or changed later.
- The team name matches the company name that is stored together with the email address in Allplan Connect or the Allplan Community.

If a company name is not available, you *must* enter the company name while opening the team.

The *team owner* can change the team name in the user account's settings at any time (see "[Changing the team name](#)").

You can open your own Bimplus team in two ways:

- **You are a registered user of Allplan Connect.**

If you are a registered user of the [Allplan Connect service portal](#) , you can open your own Bimplus team at no extra cost (up to 5 team members, 2 GB of space, [more space is available at extra cost](#)).

To do this, go to the [Welcome page of Allplan Bimplus](#) and sign in by using the same details as for signing in to Allplan Connect. Click **Create Allplan Bimplus team**.

- **You are not a registered user of Allplan Connect.**

If you are *not* a registered user of the [Allplan Connect service portal](#) , you can register with the Allplan Community for free. After registration, you get an Allplan account. You can then create your own Bimplus team at no extra cost (up to 5 team members, 2 GB of space, [more space is available at extra cost](#)).

To do this, go to the [Welcome page of Allplan Bimplus](#) and click **Register now** in the **New account** area.
