

Modelleigenschaften einsehen, ergänzen oder ändern

The most important information about a Bimplus model is available to each project member. You can find this information in the **Properties** palette:

- **Model name**
- **Description**
- **Discipline**
- **LoD** (Level of Development)
- **Created on** and date of the last **Update**
- Information about the **data source**

If you have the required rights, you can also change these entries.

To show the Properties palette for a Bimplus model

This is only possible if ...

You are signed in to the **BIMPLUS** web portal (see "[Signing in to the BIMPLUS web portal](#)")
You have the required rights (see "[Rights in Bimplus](#)")

1. Make sure the required project is the current project (see "[Selecting the current Bimplus project](#)")
2. Select the navigation menu by clicking  **Show navigation menu** on the title bar of the **BIMPLUS** web portal.
3. Click  **Models**.
You can see the specialist models of the current project.
4. Click  **Show properties** in the upper-right area of the model overview.
You can see the **Properties** palette.
5. Go to the model overview or side menu and click the model whose properties you want to check or change.
6. *If you have added or changed properties:*
Click **SAVE** in the **Properties** palette.
